

**Eswatini Government**

July 15, 2021 ·

Minister of Housing & Urban Development HRH Prince Simelane has lamented the damage to property under local authorities following protest actions that resulted in looting & burning of business properties. He has been speaking when addressing Mayors & CEOs of local authorities.

HRH Prince Simelane: "Towns look like ruins right now & it is a sore sight for us as a Ministry. This is why we have called you here today to let you know that we see what has happened, we are with you during this period & we condemn these actions in the greatest way possible."

HRH Princess Simelane: "The damage to property has taken the country back economically. I can't imagine how tough this must be for you as custodians of these areas, but as a Government we believe in your capabilities to rebuild & redevelop these areas again."

Mayor Victor Rodriguez (on behalf of Mayors): "It is indeed a sad time for us in Local Government. Towns look like ruins but we want to assure you Minister that we will work tirelessly to rebuild them."

It's all your fault Mnguni.. you said people should use fire instead of the petition delivery... so they burnt the petition papers 🧑🏽🔥

And the apathy for the dead and maimed goes on-coming from one of the most incompetent in the pack. The same one that called for "facing fire with fire" when there was no fire (both literally and figuratively). Pathetic, to say the least.

Eswatini 🇸🇿 keep praying for your nation. Pray as your king has summoned a meeting tomorrow. That meeting is spiritual, it has been designed to blindfold the people of Eswatini to be docile & accept the monarchy. A number of rituals have been done. There spiritual dynamics that control power in nations especially Africa. ALTERS. Pray 🙏
